Keel  
CLUB

*Our Leadership  
Donors*

*– 2011 Roster –*

---

*We wish to thank  
Park Press Direct for the in-kind  
donation of this booklet.*

United Way of Erie County, Inc. would like to thank all of our loyal Keel members for their generous support. The Keel Club is the strong support of United Way and we are excited to say that the Keel Club provided 35% of the donations to the 2010-2011 Annual Campaign.

154 individuals/couples are active in the Keel Club and this year, we welcomed 35 new Keel donors. In these challenging times, Keel giving is more essential than ever. The gifts go a long way in affecting positive change in the lives of our friends, family members and neighbors. Thank you!

---

## **What is the Keel Club?**

The keel of a great ship is the main timber of the ship's bottom. It extends from stern to stern and supports the whole frame.

At the bottom of every good and significant human effort we find a leadership group that gives the organization strength, character, purpose and longevity that distinguishes it from all others. United Way of Erie County draws its strength and character from its leadership group – the Keel Club.

This leadership effort has given United Way of Erie County its purpose and stability. For this reason, United Way wants to emphasize the importance and dedication of our leaders. United Way highlights this group because we know a keel doesn't just happen, it is carefully designed and laid through the efforts of many people working together for a single purpose.

Members of the Keel Club, through their contributions, and support of United Way, have joined together with other concerned individuals in providing the framework upon which the rest of the community and United Way can build. Like a keel that is strengthened by various materials, United Way's Keel Club is strengthened by the personal efforts of its leaders, as well as their financial support.
